Subject: Classification and permitting of seasonal watercraft lifts

To: Wetlands and Shoreland Program Staff

Date: May 16, 2002

Effective immediately applications to install seasonal watercraft lifts shall be classified and reviewed as minimum impact projects per Rule Wt 303.04(o), and subject to expedited review, provided the following criteria is met:

1. The lifts shall be seasonal and removed during the non-boating season;
2. The lifts shall be located completely within boat slips provided by legally existing docking facilities;
3. The lifts shall be installed without any modification to the docking facilities;
4. The lifts shall not include canopies; and
5. The lifts shall be installed without any dredge or fill of the lakebed.
